GÖRING

Has lost much of his prestige and power; recently the Ministries were told officially that they should in the future refer to Hitler as Führer of the Greater Reich, and not as Chancellor of the Reich; it is rumored, as a result, that maybe Göring is about to be 'demoted upward' to the position of Chancellor; this would mean that he would lose control of the five-year plan and of the Luftwaffe, i.e., he would have no more say over occupied Europe and economic control in Germany.

GÖRTZ, HERMANN

IFA documents to which Stephen HAYES led the Eire police in October 1941, showed that Goetz' leadership of the IRA had split it from top to bottom; some patriotic Irishmen refused to work for Ireland's liberation with German assistance, while some left-wing members were willing to act as German agents in Eire and US. His parachute, about \$200,000 in American money, and a newly purchased suit of clothes, were found in the house of a Dublin woman whose husband has been in Germany since the outbreak of war; she was arrested and later released; the existence of the German spy ring within the IRA was uncovered with the arrest of Goetz.
